Our Mission

The Don Dunstan Foundation is a public policy leadership organisation, dedicated to building on the legacy of former Premier Don Dunstan – Australia’s greatest social reformer.

We work on collaborative projects to create a fairer world.

The Challenge

The biggest problems in our community – like poverty, inter-generational injustice, and homelessness - require long-term, evidence-based solutions.

In the contemporary world, decision-makers find it harder than ever to make lasting change for good

The Solution

The Don Dunstan Foundation brings people together to find answers to these problems.

Through policy forums, inspiring events, research, education and advocacy, we build coalitions of support for good ideas – even those that take time, patience and trust to from to fruition.

The foundation draws from a deep well of support from the South Australian universities, policy makers, businesses, the social services sector and thousands of individuals who value our contribution and that of our founder.

Together, we can make a lasting difference to the lives of South Australians and build on our state’s reputation as a test-bed for positive social change.
